<b>GRANTED</b>	<b>18/03035/ADV</b>	Co-Operative Food	Various signage

iii) **To deal with any other planning related matters**

a) **To discuss correspondence from Miller Homes in relation to the Firlands site and the provision of Open Spaces**

Members were advised of correspondence received from Miller homes in relation to the open spaces within the new development on Hollybush Lane. Miller homes have been advised that the development falls within the parish of Sulhamstead, not Burghfield, and therefore they are required to contact Sulhamstead Parish Council with their request accordingly. WBC have also been advised of the error of being presented to Burghfield in the first instance and not Sulhamstead.

b) **To discuss progress to date of the NDP and the future development of the plan overall**

Concerns were raised in relation to the overall progress of the NDP for Burghfield. Specifically, the production of a document, even in an outline format as a starting point to ensure overall progression.

Various discussions were held amongst members present to determine a way forward in the development of the NDP. Members discussed the allocation of housing within the parish, now and in the future, and the requirement for more proactive consultation within the community to ascertain exact locations and sizes of future developments.

Members urged the NDP group to complete their questionnaire. The final draft is to be presented at the April parish council for approval by members. Upon approval, the questionnaire is to be circulated with the June parish newsletter.

Dr R Longton advised that various chapters within the overall NDP were in progress. A request has been presented to the members of the committee to ensure the document is progressed with more urgency.

c) Member were alerted to the document "*Wokingham Strategic Framework Master Planning Document*" *Grazeley Growth Scenarios report* currently available via the WBC website for viewing.

**6. Transport**

i) **To consider any Highway or Road Safety improvements for implementation within the parish**

WBC are being pushed in relation to the current condition of the road surface of Reading Road. The improvements are scheduled for works within the 3-year plan, proposed for completion during 2021. WBC reiterated that a total of 158 miles had been repaired within the area during the current programme of improvements.

Concerns were raised in relation to the condition of the railway bridge and the surfacing of the road beyond. A request is to be presented for the area to be assessed and included within the programmed works accordingly.

ii) **To receive an update following concerns regarding speeding on Reading Road and the request submitted to WBC for a speed survey**

Further to concerns being raised by a local resident regarding the perceived speed of vehicles within the vicinity of Church Cottages, WBC were asked to undertake a speed survey to establish the extent of the speeding with the results indicating that the speeds are still overall good for a 50mph speed limit road. WBC also advised that their

speed co-ordinator had recently retired and until the post had been filled, no further surveys could be carried out.

Enquiries have been made with the local rural policing team for the historic data relating to accidents from the Reading Road, between The Mearings, Dean Copse Road and St. Mary's church for the past 10 years. The data will be forwarded to WBC upon receipt.

iii) To receive an update in relation to potential volunteers for launching Community Speedwatch within the parish

Clarification was sought from WBC in relation to the parish council requesting community speedwatch volunteers from within the parish. Training of the volunteers identified was requested, with WBC advising the need to attend a two-hour session at WBC. Individual or group sessions are not deemed operationally viable for WBC. A plea for further volunteers is to be presented at the next parish council meeting.

A request has been presented to WBC for the use of the SID for longer periods within the parish to address the three priority locations for speeding within the parish. Mr D Godwin advised there had been several changes in relation to the reporting of the data and usage of the SID.

**7. Safer Communities**

i) Policing & Anti-social behaviour issues

Clarification was presented in relation to the use of sniffer dogs at the Willink School. Further discussions are to be held with all parties.

**8. Parish Maintenance Issues**

i) To receive a report highlighting maintenance carried out during the previous month

The parish handyman continues to undertake all identified works.

ii) Footpaths & Bridleways within the parish

The bottom corner of the newly laid path running along the bottom of the Hatch Recreation Ground is experiencing water logging. WBC are to be asked to investigate accordingly.

iii) Grit bins

Following the recent spell of wintry weather, all grit bins require to be refilled. Various quotations, and alternative methods of filling the bins were obtained, with a competitive quote having been obtained. Members **resolved** unanimously to refill the grit bins now.

iv) To note any items within the parish requiring action

No further items were identified requiring action within the parish.

**9. To receive an update in relation to Section 106 projects within the parish and determine future projects**

The item was deferred to the next scheduled meeting due to item constraints.

**10. Matters for future discussion – S106 projects**

**11. To receive items for information only- No further items**

**Conclusion:** The Chairman declared the meeting closed at 21.05pm
